# Klenk® Aviation Snips

**MOST DURABLE + EASIEST CUTTING + MOST COMFORTABLE**

**Klenk Aviation Snips with Built-in Wire Cutter**  
Allows cutting of hardened wire -- No more nicked snip blades!  
(Featured on 10½" models MA70530-580)

**Comfortable:**  
Softer grip gives you control and is easier on your hands!

**Heat-treated, Precision-ground Blades:**  
The most durable in the industry!

**Grade 8 Pivot Bolt:**  
Adds strength!

# Klenk® Offset Snips

**Comfortable:**  
Softer grip gives you control and is easier on your hands!

**Strong Blades:**  
Keep cutting long after other snips give out!

**Efficient:**  
Snip handles open only 4½"!

**Small Profile Tips:**  
For easier access into holes and tight spaces!

**Unique Flat Blade Design:**  
For the easiest turning snip -- handling straight cuts, tight curves, angles, and circles more easily than any other aviation snip!

## What Our Customers Say:

★★★★★ "I have been a roofing and gutter man for 21 years, I have tried just about every brand of snips available. The Klenks are hands down better than any other -- they stay sharp longer, they are designed and ground to allow tighter turning, the reds and greens ergonomic/spur model are easier on your wrist and fingers if you use them a lot. They are easily worth the few dollars extra over other brands"

★★★★★ "I bought these on the recommendation from the teacher of a workshop I had taken and was not disappointed. They work great and I have been recommending them to my students ever since."

## What Our Customers Say:

★★★★★ "My old cheap snips caused so much trouble I threw them away and got these. The difference is amazing. These are sturdy and do the job well. They cut cleanly."

★★★★★ "This is a product in an entire different class from virtually all other snips, truly a well made product for the craftsman who has an appreciation for great tools made old school."

★★★★★ "I have had many different types of aviation snips in my 30 years of HVAC trade, but I have never used a pair of snips like Klenks, excellent American made product."
