

# Utility Jack Knife

- Quick blade change mechanism makes blade replacements simple and fast.
- Liner lock design with oversized thumb opening allows one-handed opening, holds blade securely during use, and folds knife to 3½".
- Knife construction features polished, cast steel handle with wood inlay.
- Convenient clip for belt or pocket keeps knife secure and handy.
- Uses standard, double-notched, utility blades, and comes with five spare blades.

**Includes  
Convenient,  
Nylon Pouch with  
Belt Loop**

## Replacing Blades:

Push thumb opening to release blade; pull blade out.
